Focused Technology Solutions understands how equipment, production and operations affect workers' lives.

© Focused Technology Solutions 2019

The SpikeEase increases production, reduces injuries, and eliminates the need for hydraulics.

Even better, the SpikeEase works as fast as **3-7 seconds per spike on average.**

You need a better, environmentally safe alternative to the current hydraulics and claw bars.

Well, now you can put your trust in the value of the Focused Technology Solutions' SpikeEase.

BATTERY OPERATED
SPIKE REMOVER
PATENT PENDING

973-705-7170 · FocusedTS.com

The world's most advanced, portable,
battery operated spike removal tool.

“Wait, battery operated?”

Yes. Battery operated.

We mean no hydraulics, no gas powered generators, no 50 foot hydraulic hoses or hazardous and dangerous fluids.

“And what about the claw bar?
Can we get rid of that too?”

Yes, yes we can.

In listening to our customers and their needs, we have developed an alternative advanced solution to the current spike removal methods of hydraulics and claw bars.

They said it couldn't be done, but we never got that memo.

What are the benefits?

Spike removal averages 3-7 seconds per spike.

Over 350 spikes per battery cycle.

Lightweight: Weighs less than 30 lbs.* (up to 20 lbs. lighter than conventional hydraulic devices.)

No hazardous hydraulics, hydraulic hoses or fluids.

No need for a gas powered generator.

No need for claw bars.

What's the application?

Battery operated spike removal.
